??

Got it sorry didn't mean to hit?

This is for the TFR popping up Butte/Plumas border and 1340 & 1336 are cleared into tfr up to 5 miles

This is from ██████████ just left RF. This is spreading quickly, was only 100 acres when I reported to Cal Fire but is now at 1200 according to Wildfire people.

Per the PSS contact, the fire is growing rapidly and all scheduled work/ships need to stay well outside of the TFR. I have notified the pilots
